General terms of your Even membership

Reasonable & Customary charges

Your Even plan will cover Reasonable and Customary Charges towards any service used. These are the usual costs for services or supplies, similar to what others charge in the area, based on the type of illness or injury.

For example, surgery for an ACL injury costs 2 lakh across popular and similar quality hospitals in your geographical region. But you want to get it done at a non-network hospital from a preferred surgeon who charges four times that cost. Your insurer is liable to pay only reasonable & customary charges for this procedure.

We recommend always going to the network hospitals for cashless experience. Insurers and hospitals agree on predetermined rates for each service. This way you can avoid paying inflated charges out of pocket.

Fraud/Non-disclosure/Liability

Inaccuracies or omissions regarding your medical conditions, or any fraudulent claims, may lead to new restrictions, a suspension or cancellation of services, or membership termination by Even. Refunds are not provided in these instances, and an investigation may commence with your assumed consent and cooperation.
